Case Gross Weight	24-33 LB	Kosher Status	No

Preparation and Cooking

Butterball recommends product be cooked from a thawed state. To thaw, refrigerate in original packaging for 48 hours. In a shallow pan, place the roast in its original packaging. Cooking instructions: For a convection oven, preheat to 325 degrees F. Cook the roast for approximately 2.5 - 3.5 hours or 16-20 minutes per pound. For a conventional oven, preheat the oven to 350 degrees F and cook the roast for approximately 3.5 - 4.0 hours or 20-24 minutes per pound. Use a meat thermometer and insert into the thickest part of the product to verify doneness. The roast should reach a minimum internal temperature of 165 degrees F. Remove the roast from the oven and let the roast stand for 30 minutes before slicing or carving.

Packaging and Storage

Shelf life: Frozen: 548 days Storage Temperature: Frozen: 10 Degrees F or less

Other Information

Lightly seasoned in a cook in bag, this raw roast provides the desired whole bird aroma and taste. A 10% solution is added deep within the roast to enhance overall moistness. This versatile, easy to carve product is excellent for center of the plate applications, carving stations and premium sandwiches.

22655 89204 - Turkey Thigh Roast

Premium Fully Cooked Turkey Thigh Roast; approximately 6 Pounds Per Piece; Sold Frozen; Shelf Life Frozen 548 Days from Pack; format MM/DD/YY; this is a catch weight item

Brand: Butterball

Product Specifications

GTIN	90022655892048	Case Net Weight	18 LB
Item UPC	022655892045	Case L,W,H	18.63 IN, 9.88 IN, 5.50 IN
Pack/Unit Size	3/6 lbs avg	Cube	0.59
Shelf Life	Comment: Keep Frozen; 548 Days. Frozen: 548 Days.	Tie x High	10 x 10
Case Gross Weight	19.80 LB	Kosher Status	No

Ingredients

Turkey Thigh Meat, Turkey Broth, Contains 2% Or Less of: Dextrose, Onions, Salt, Sugar, Spices, Natural Flavor, Potassium Phosphate, Yeast Extract, Sunflower Oil, Pea Protein isolate, Garlic Powder, Onion Powder, Rice Flour Contains No Allergens.

Preparation and Cooking

HANDLING: 1) Receive and store turkey thigh roast in a frozen state until ready to use. 2) Follow proper thawing instructions prior to cooking. PREPARATION: 1) Thaw cooked turkey thigh roast in refrigerator for at least 48 hours. Thaw on a tray, out of the box. 2) Preheat oven (convection oven) to 325-350 degrees F. 3) Remove the outer cooking bag from the turkey and empty entire contents of package into a baking pan or equivalent. There will appear to be quite a bit of free liquid; however, this should go into the pan with the meat. 4) Separating the meat by hand and dispersing evenly throughout pan prior to cooking is recommended and will reduce cook time. 5) Cover prior to placing in the oven. 6) Heat dish for about one hour (time will be longer if product was not separated) at 325-350 degrees F in convection oven. Extend time by about 45 minutes in standard oven. 7) Remove covering and continue to heat for 10-15 minutes to add color to the meat. 8) Make sure that product internal temperature is at least 145 degrees F, or above the minimum safe handling requirement for products served warm. 9) Remove dish from oven and prepare to serve. Product can be sliced, diced, or shredded for different menu applications.

Suggested Uses

Perfect for turkey BBQ, tacos, and a variety of menu applications.

Other Information

Made from premium thigh meat, this turkey thigh roast is fully cooked and can be sliced, diced, or shredded. Perfect for turkey BBQ, tacos and a variety of menu applications.
