

PUTTING CHILD NUTRITION **FIRST**

Expect a company that is ready to assist in any situation or emergency. In this day and age PrimeroEdge knows that policies could change at any time, and pandemics can strike unexpectedly, but we're always ready. We strongly believe that no child should go hungry, and we do everything we can put children first.

PrimerEdge adapted to create and provide immediate solutions during this unprecedented time

Since the start of the pandemic three new products were launched to help state agencies and districts provide nutritious meals to children during the COVID-19 crisis.

Multiple Meals is a new feature which enables districts to record sales for reimbursable meals within a single process for multiple days and meal types.

K12MealsOnline is an easy and mobile solution for districts to communicate meal pick-up locations to parents and keep count of meals served. ➔

Digital Pre-Ordering allows parents, students, and teachers to pre-order meals without ever stepping foot in the cafeteria. ➔

“Implementation was great. Everything was up and running within 48 hours! Anita has been amazing and very easy to reach out to and answered questions quickly. On our end, it was really easy to get the software implemented and parents already know the ordering system!”

- **Sandy Scheele**
Murfreesboro City Schools

Our **Contactless Software Suite** is the first suite of its kind that helps you maintain social distancing guidelines with easy scan and go options, meal tracking, and more.

The full suite includes ExpressPoint POS, schoolcafé, Inspections, and K12 Meals Online, so that school districts can continue serving students from anywhere. ➔

Emergency Meal Survey

was created to help states collect crucial information for providing pandemic EBT, and resulted in over 10,000 families assisted in just the first week. ➔

“Thank you so much for all that you and your team have done on the software side to make [this] project happen. We appreciate benefiting from all the software has to offer and you continue to do for Missouri Schools.”

- Barbara Shaw

Missouri Department of Elementary & Secondary Education
